100% CONNECTED

Your iconic DAILY

SUPERIOR DRIVING EXPERIENCE

More user-friendly and comfortable than ever.

SAFE AND STRONG

Safe in every situation and in all conditions.

ASSISTED DRIVE AND GSR

Traffic Jam Assist, Adaptive Cruise Control with Stop&Go and GSR functionalities.

VERSATILE

Ready to follow your business even in the most demanding missions.

CONNECTIVITY

Maximizes your Daily's uptime and your business productivity.

Comfort and functionality

The driver's place is designed around you, with a car-like dashboard and a host of new features and functionalities to provide a superior work environment with a user-friendly interface.

Functional dashboard

The new dashboard with ready-to-use storage compartments is designed to make your life easy with phone and tablet holders, wireless charging and all the spaces for your belongings.

Configurable cluster

Easily read all your vehicle's information on the standard 10-inch cluster with a wide screen and larger font sizes. Choose from three layouts, easily switching with the stalk lever button.

Infotainment

Enjoy your life on board with the 10-inch high-resolution color display integrated into the dashboard. Navigation is simple and intuitive, and you can link your mobile device with mirroring and use IVECO Driver Pal with the in-cab microphone.

DAB radio

You can easily interact with the new DAB radio using the 7-inch touchscreen display and voice recognition and connect your mobile device.

Supreme seating comfort

The seat cushion, backrest and headrest in memory foam deliver more safety and comfort with a premium driving experience.

Effortless safety on the road

The Daily offers a safe and stress free driving experience with a host of new Advanced Driver Assistance Systems that will make driving on the road and in traffic effortless. The new ADAS are particularly valuable in urban missions, where they will help avoid possible collisions with pedestrians or cyclists.

1 TRAFFIC JAM ASSIST

Automatically follow the traffic flow and stay in your lane.

2 LANE CENTERING

Automatic steering to continually center the vehicle in its lane.

3 ADAPTIVE CRUISE CONTROL WITH STOP&GO

Cruise safely on the road, automatically keeping pace and stopping with the vehicle in front.

4 AEBS & CITY BRAKE

Avoid collisions in city traffic and protect Vulnerable Road Users.

5 TURN ASSIST

Turn safely, automatically braking to avoid collisions.

6 INTELLIGENT SPEED ASSIST & TRAFFIC SIGN RECOGNITION

Always keep to the speed limit and keep safe with alerts and traffic sign recognition.

7 BLIND SPOT INFORMATION SYSTEM

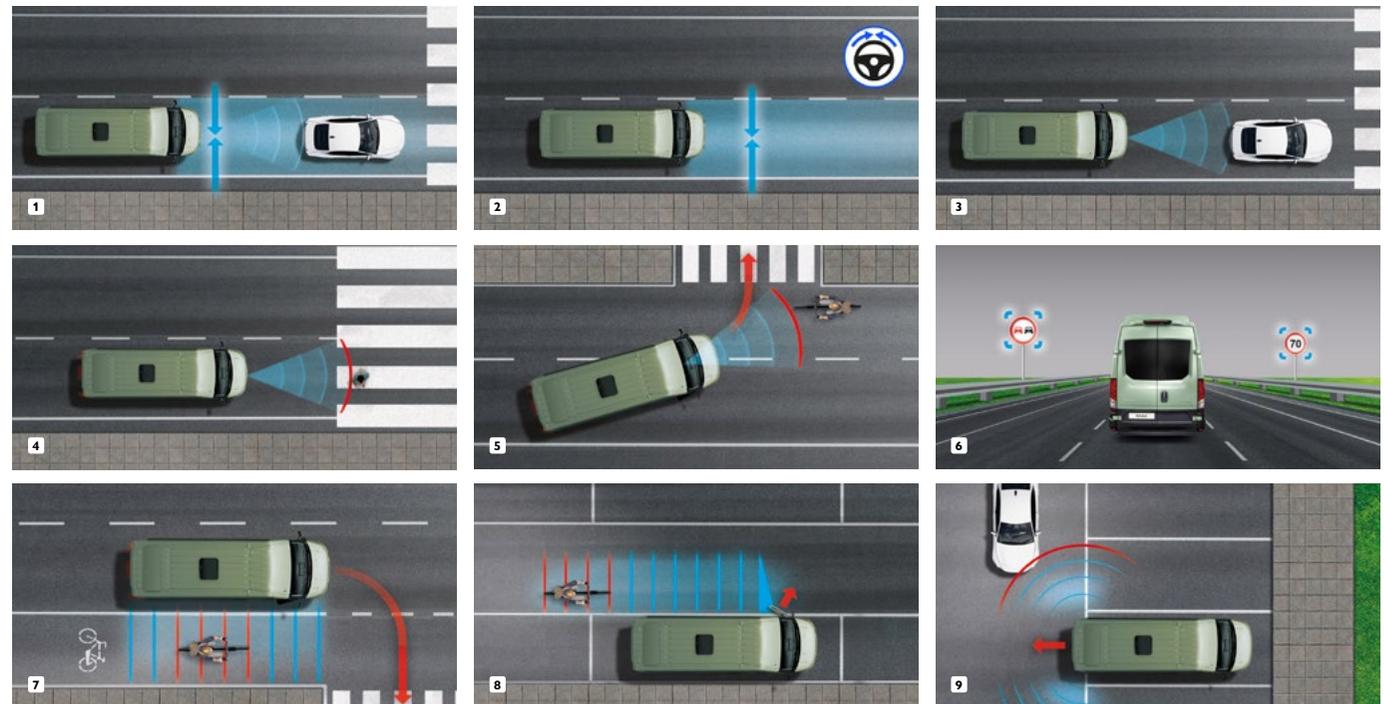

Turn safely protecting cyclists.

8 BLIND SPOT & DOOR OPENING WARNING

Change lane and manoeuvre with confidence and open the door safely.

9 REAR CROSS TRAFFIC BRAKING

Reverse with confidence.

On-board well being and comfort

The Daily Minibus offers a wide range of solutions in terms of technology and style fully dedicated to passenger comfort: attractive interior design, numerous seats layouts with the wide selection of fabrics, configurations with the wheelchair space for the full accessibility, air conditioning and diffusion systems delivering an outstanding comfort.

The lowered luggage compartment in the tourism version with up to 2.5 m³ capacity and the internal luggage racks aim to have the best-in-class total luggage compartment of its category for all transport needs.

Superior Driving Comfort

A wide choice of rear suspensions, from the AIR PRO pneumatic intelligent suspension to the new mechanical rear suspension that will enable maximum passenger capacity.

AIR-PRO.

The intelligent suspension

The air suspension provides a supremely comfortable ride with excellent stability, protecting all the passengers. The driver is in control: the best set up, prioritizing comfort or performance can be chosen as needed. A dedicated switch on the dashboard and TFT graphics make it easy to manage the entire system at the touch of a finger.

New rear suspensions with passenger capacity optimization

A new rear composite leaf spring suspension with progressive stiffness, available as option for single wheel version, enables a passenger capacity increase while delivering a performance comparable to the standard double leaf suspension.

HI-MATIC

Absolute driving Pleasure

Enjoy comfort, safety, fuel economy and performance with the exclusive 8-speed HI-MATIC automatic transmission. Enhance your driving experience even further with the new multi-function ergonomic lever with power selector.

Endless opportunities.

A DAILY Minibus for every need

The extensive range of the Daily Minibus is able to meet a wide variety of requirements for different passenger transport missions: Tourist mission for traveling with comfort and style, city mission with urban and peri-urban mobility solutions to make the entire city accessible.

Unlimited versatility

The extensive line up of the Daily Minibus, which can carry up to 35 passengers, means there is a model for every people transport mission:

- Tourist mission for travelling with comfort and style
- Intercity mission with a category-leading passenger capacity
- Shuttle buses for airport and hotel services
- School buses specifically designed for student transport
- City mission with urban and peri-urban mobility solutions

Engineered to perform

The Daily offers an extensive engine line up, so you can choose the performance that fits your mission you know you can count on the power, traction, passenger capacity and quick response you need to perform your missions efficiently and with low total cost of ownership.

3,0-litre FIC Diesel engine with SCR

3 power ratings from 160 to 207 hp
Torque up to 470 Nm

Sustainably efficient

The double SCR technology ensures Euro VI-E and Euro 6-D Final compliance. The Daily's engines and after-treatment system are designed for fuel efficiency.

3,0-litre FIC Compressed Natural Gas engine

eDAILY

Access all areas, no limits,
with the best minibus in town

Whatever you may go eDaily Minibus is your best solution for emission free and noise free urban travel. eDaily is versatile as Daily: it offers the same agility, layout and passenger experience as the Diesel version.

The driving mode selector allows you either to extract maximum power or minimize energy consumption. One Pedal Drive mode makes urban driving easier and converts brake kinetic energy into electricity reducing eMotor energy consumption. With eDaily you have all your creature comforts; including the AIR PRO intelligent pneumatic suspension which offers 25% vibration reduction, as well as all of the technologies and features of Daily that you are used to.

DAILY Minibus CNG

Sustainability champion

Over the last 25 years, IVECO BUS has developed CNG as an alternative power source to petroleum derivatives. Daily CNG Minibus is the perfect partner for sustainable passenger transport, whatever the mission. With our CNG model, you can forget about the constraints of environmental regulations in city centres and high-traffic areas thanks to the powerful, efficient and sustainable performance of the 3.0-litre CNG engine's 136 hp and 350 Nm of torque. CNG mobility offers almost zero particulate emissions, as well as low NOx and reduced noise (down to -3 dB). In combination with the use of biomethane, the CO₂ footprint can be reduced by up to 95%.

Energy Mobility Solutions (EMS)

IVECO BUS's Energy Mobility Solutions (EMS) offer a comprehensive approach to support customers in transitioning to 100% electric or hydrogen fleets, extending beyond vehicle supply to provide specialized consulting, software design, facility implementation, and a single point of contact for both electric and hydrogen solutions.

COMPLEXITY MANAGEMENT

Designing and operating a zero emissions bus depot requires a higher level of complexity. EMS aims to offer a **single point of contact** to develop your solution both in electric and hydrogen.

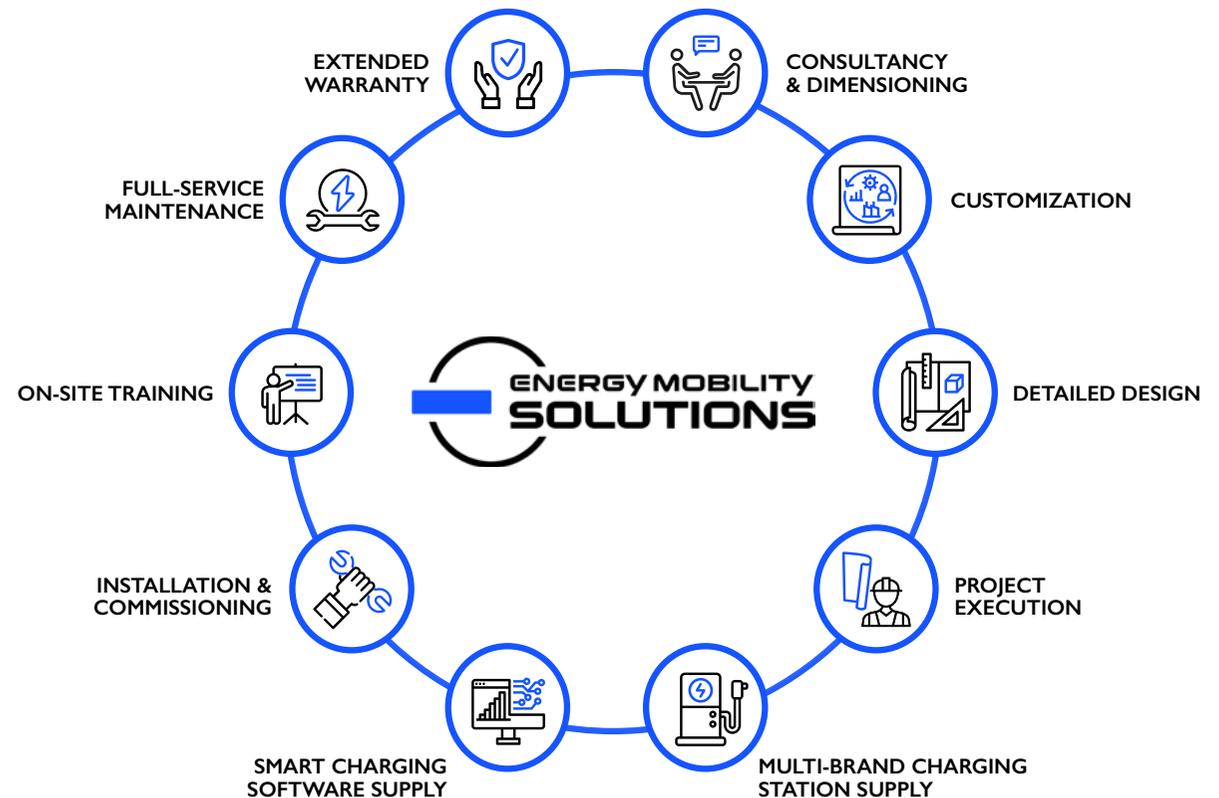

FLEET UPTIME

We share your same interest: vehicles must be ready to perform the service they are intended for. EMS takes care of managing the charging infrastructure and vehicles in a way that ensures they are **fully operational every day**.

ENERGY OPTIMIZATION

We have always been by your side to optimize your vehicles' fuel consumption. Now, we want to help you **optimize the energy consumption** of the entire ecosystem: buses and infrastructure.

A new world of connectivity

All vehicles come with the connectivity box installed, allowing you to activate the standard Start Pack and combine it with a choice of Premium Mobility Solutions tailored to your business goals (terms and conditions apply).

Standard service bundle

Start Pack

It simplify your life on board with a set of services aimed:

- **IVECO ON Access** for you to monitor your fleet data so to optimize performance and efficiency.
- **Uptime Monitoring & Management** to maximize your vehicles availability.
- The new **Easy Daily App** to make your life as a driver easier.

Premium service bundles

You can tailor your Mobility Solution with additional Premium bundles.

Productivity Pack

You can boost your productivity by extending the Start Pack with:

- **IVECO ON Plus**, which enhances your IVECO ON experience with ADAS remote control and vehicle positioning updates.
- **Web API** to manage your fleet effortlessly with your own fleet management system.

Driver Assistant Pack

Turn your Daily into your ideal travel companion with:

- **IVECO Driver Pal**, which transforms your driving experience as you interact with your vehicle through vocal commands.
- **TomTom Live** for professional navigation, live traffic, and speed limit warnings.

Safety Pack

Enhance your safety on the road and your vehicle's security with:

- **IVECO ON Plus**, which enhances your IVECO ON experience with ADAS remote control and vehicle positioning updates.
- **Professional Safe Report** to evaluate and improve your driving style to be safer on the road.

Tailored service solutions

When selecting IVECO BUS you have made a quality choice: you can rely on the best maintenance, high performance parts, and skilled experts ready to help you whenever and wherever you need it, allowing you to be focused just on your business.

Customised service packages

With the aim of offering you the service you need, IVECO BUS has a wide range of tailored service packages, designed to keep your vehicle on the road with minimal interruptions for maintenance and, if needed, repairs.

Tailor-made service

Specialised high-quality service packages aim to ensure a long life for every vehicle in all sectors. Combine the packages that best fit your needs in order to create your own tailor-made service solution! Choose your Planned Maintenance Contract and Extended Guarantee, by combining the major Elements that make up the offer (Maintenance, Drive Line, Extra Drive Line, Wear) that perfectly suits your business.
